CHANGES IN THE ENGINE PERFORMANCE GRAPH BY TRANSMISSIONS. (Die Veränderung des Motorkennfeldes durch Getriebe). [1960] [48]p. 28 refs.
Order from SLA mi$3.30, ph$7.80 61-10289

Trans. of ATZ [Automobiltechnische Zeitschrift] (Germany) 1960, v. 62, no. 8, p. 201-210.

The performance graphs for the output at the transmission take-off plotted in this report for the most important transmission types were combined from separate performance graphs for engine and transmission. With an increasing distribution of automatic transmissions, particularly in combination with Fottinger converters, the performance graphs for the evaluation of the entire vehicle should be measured at the transmission output shaft. Excellent individual performances of engine and transmission constructions can remain ineffective unless they have been adapted to each other. (Author)
